Real Estate Agents, Dealers in Horses and Cattle.

We are prepared to show you what we have, and if we have not what you want, we will let you know. Licensed Auctioneer, Charge as agents.

J. K. GRAY & SON, Millet, Alta.

## Canada At The World's Fair

"Canada will take part in the Louisiana Purchase Exposition as a Nation." Such was the answer given by Sir Wilfrid Laurier, of Canada, from his seat in the House of Commons, to an inquiry made to the government by one of the Canadian members of Parliament.

The great "silver tongued" man of Canada meant what he said. The news just received from Ottawa, the seat of the Canadian government is to the effect that extensive preparations are being made to show to the world the immense resources possessed by the neighbors to the North.

Canada has grown and prospered wonderfully during the last decade. It's trade has increased to enormous proportions. It's crops have been such as to merit for Canada abroad the title of "granary of the world." It's mines and ore fields, particularly those of Nova Scotia and Cape Breton, have been developed in such a way as to set dreaming the most pessimistic and it is generally conceded that the finest jewel in Great Britain's crown can more than supply it's home market for minerals while in exports annually millions worth of grain, fish, lumber and timber.

Of the industries based upon natural resources the fisheries rank second in Canada. This country has over 5,600 miles of sea coast, in addition to inland seas, innumerable lakes, and a great number of rivers. The exports of the fishery products in 1907 amounted to \$22,783,546. The home consumption is estimated at a value of \$15,000,000, giving a total yield from the fisheries of nearly \$38,000,000 annually, exclusive of the catch by foreign fishermen.

The sea, inshore and inland fisheries of Canada furnish cod, mackerel, haddock, halibut, herring, lake, salmon, shad, alewives, striped bass, smelt, lake trout, muskellunge, white fish, sturgeon, pike, perch, black bass, brook trout, lake, and gold eye, besides oysters, lobsters, seals, whales and walrus.

The richest whaling regions in the world are said to exist in the Hudson Bay and Arctic regions of Canada.

The Pacific coast fisheries furnish halibut, black cod, outachan, anchovy, herring, smelt, and many species of salmon and trout. The salmon of British Columbia are worth over \$5,000,000 annually, and the total yield of the fisheries of that province exceeds \$5,000,000.

Lumbering ranks third among the extractive industries of Canada and the forest wealth is very great. It is stated that 123 species of trees grow in that country, 94 occurring east of the Rocky Mountains, and 29 on the Pacific coast. The forest belt extends a distance of about 4,000 miles east and west, with a breadth of some 700 miles.

The trees consist principally of the following species: black and white spruce, larch, pine, white pine, red pine, larch, balsam fir, balsam poplar, aspen, canoe birch, birch, cherry, white cedar, black ash and mountain ash occur sparingly in the southern part of this belt.

British Columbia is thought to possess the greatest compact reserve of timber in the world. The wooded area is estimated at 285,000 square miles and includes many kinds of timber. The Douglas spruce is the know tree of British Columbia and indeed of Canada.

The forests of Canada contain pine, spruce, hemlock, oak, elm, maple, beech, birch, butternut, hickory, bass wood, etc. Nearly 38% of its whole area is forested.

In 1899 the capital invested in the pulp mills of Canada alone was about \$15,000,000. The capacity of the mills over 1200 tons per day. The value of the forest products exported in 1901 was nearly \$35,000,000, and their total must have been at least three times that amount.

It will readily be seen that indeed, Canada has something to show and she intends to spring a universal surprise next year. Mr. Wm. Hutchingson, Canadian Exposition Commissioner, is just back in Ottawa from Japan, where he represented his country at the Osaka Exposition. Mr. Hutchingson's trip to Japan is certain to be of considerable future benefit to Canada and already shipments of wheat and flour have been made to the Far East country just visited by him.

## Unexampled Generosity

Two to well known sports recently returned to town after a few hours shooting laden with chickens, ducks and a goose.

He whose share the goose fell is a patron of a well known restaurant and thither the toothsome bird was taken with the request it should grace the dinner table of Sunday, Sept. 20th. The change in menu for that day having become known to all who patronize the restaurant resulted in every seat being filled when the dinner hour arrived. With the instincts of an Irishman and a true host the son of man refused to partake of the goose, alleging as his reason an insufficiency for every guest. In this generous self abnegation he was joined by another—not a stranger.

It is needless to add that every disciple of Epicurus present at that dinner enjoyed the treat and heartily thanked the giver. But in this case of grab and grasp when altruism is a dream of the philosopher, such unparalleled generosity naturally suggests a suspicion and in the interests of the Fresh Meat Society an investigation into the time and cause of the death of this celebrated goose should be held.

## American Currency

Everybody will be pleased if the Canadian Manufacturers' Association at its forthcoming meeting at Toronto will suggest a means for stabilizing the currency of United States currency circulating in Canada. It is a difficult matter to deal with because the money is brought here by tourists and travellers from the other side and accepted at its face value by hotel keepers and merchants. So long as the money can always be realized on dealers of course accept it rather than send customers next door. The banks withdraw bills from circulation but the silver remains and constitutes the principal part of the currency. Canadian bills and silver do not circulate in the United States because the public there refuse to take them in change. From the border states where the railways, hotels and merchants accept the money. It goes no further but is sent back to Canada, whereas business people on this side put it in circulation. In fact they make a point of getting rid of it to every one that comes along. It is not legal tender and would soon disappear if the public were to follow the example of the street railway and refuse to accept it. Many do this and have no trouble in getting the right change. Sir Francis Hicks put a stop to the silver nuisance in 1867. He reduced its value by act of Parliament. As the law stands United States silver is not current in Canada. Who ever accepts it does so at his own risk—Witnes.

## Longer Life

Life insurance experts assert that men live considerably longer now than they did fifty years ago. According to their comparative figures covering a century, the increase in the expectation of life has been raised in Europe from 16.1 per cent to 56.4 per cent for men, and from 48.6 per cent to 57.8 for women. That is to say, the average duration of life has lengthened that much; and for men the increase is about 1 per cent more than for women. In Great Britain in 1858 the annual death rate for all ages was 23 per 1,000. In 1900 it was 19 for women. In 1858 it was 22 and in 1900 it was 17. Records in the United States are too imperfect for the first half of the last century to be reliable. In 1900 the death rate has dropped to 18.9. In 1901 it dropped to 18.3 and it is probably falling steadily. This result is due chiefly to the better understanding of the laws of hygiene, but also to the progress made by medical science and the attention paid to the sanitation in cities and communities. The death rate among children has been considerably reduced. Epidemics are less frequent and when they appear they come in a milder form, and are more easily controlled.

## Corns Between the Toes

Or the soles of the feet can be cured by the use of a corn extractor, which has been successfully used for 30 years. Putman's is pure and painless, and much better than any substitute.

## Goals to Senate

Ottawa, Sept. 30.—The national Transcontinental Railway bill was read a third time in the house to day and passed the vote upon which it was adopted. It was 75 to 35 against, a majority of 40 for the Government. The vote on the amendments being reversed. The bill has been before the house since July 30th and has been discussed such as no measure has been before. It has occupied the attention of Parliament for a longer period than any other bill since Confederation. Among the other long debates were the Franchise Act in 1885, the National Policy, so called, in 1890; the Remedial Bill in 1896. Fourteen amendments were proposed on the third reading of the National Transcontinental Railway Bill and all were voted down by a slight party majority. The bill will be reprinted and will reach the Senate probably on Friday next. It will likely take three days and probably more in the upper house. This will depend on the length of sittings.

## Secret of Success.

"What is the secret of success?" asked the spin. "Push," said the button. "Take pains," said the pencil. "Never be led," said the window. "Be up-to-date," said the calendar.

"Always keep cool," said the ice. "Do business on tick," said the clock. "Never lose your head," said the barrel. "Do a driving business," said the hammer. "Aspire to greater things," said the nutting. "Make light of everything," said the fire. "Make much of small things," said the microscope. "Never do anything offhand," said the clock. "Spend much time in reflection," said the mirror. "Do the work you are suited for," said the line. "Get a good pull with the ring," said the door bell. "Be sharp in all your dealings," said the knife. "Find a good thing and stick to it," said the glue. "Trust to the stars for success," said the night. "Strive to make a good impression," said the seal—Life.

## BARNHILL & BUSH

LIVERY FEED & SALE STABLE.

Drying promptly done. Competent Guides provided with Rigs if necessary. Opp. Queen's Hotel.

## T. T. BELSHEIM

General Blacksmith.

Wagon making and general blacksmithing promptly done. Horseshoeing a specialty. Stand—Near the Sweden boarding house. East Side Track, Wetaskiwin.

V. C. FRENCH, Editor and Proprietor

THURSDAY, OCTOBER 8, 1903.

**Rev. Chegwinn Home From  
Peace River**

Rev. W. B. Chegwinn got home on  
Friday last from his missionary trip to  
the settlement of Peace River. Mr.  
Chegwinn left Strathcona for the north  
on July 14th, going by stage to Athabasca  
Landing, thence by H. B. boat up  
the Athabasca and Lesser Slave  
rivers and lake to the Lesser Slave  
trading post. At that post he remained  
for a week. There are several fur  
trading companies represented there  
and the Roman Catholic church has  
extensive mission buildings there. W. C.  
Blackman at one time in business at  
Strathcona is an accountant in the  
office of the H. B. Co. at that post.

From Lesser Slave Lake Mr. Chegwinn  
went by trail to Peace River  
Landing, another trading post, and the  
nearest point on the Peace to  
civilization. Here the banks of the  
river are immense the water being  
seven hundred feet below the level of  
the country. At the Landing he secured  
a passage on a raft down river to  
Wolverine Point. There he bought a  
dog out and hired an Indian boy  
who accompanied him down to  
Fort Vermilion where he located the  
largest settlement on the river nearly  
six hundred miles north by northeast  
from Strathcona. Hereon Aug. 10th  
he found Mr. Lawrence's camp of 200  
acres of wheat, oats and barley ready  
for the binder, a magnificent sight.  
At Fort Vermilion are located a large  
flour mill owned by the H. B. Co., also  
two grain mills and three small saw  
mills owned by the R.C. mission and  
fur traders. There are a number of  
white settlers at this point and  
room for many more on splendid  
land. The H. B. Co. pays \$1.50 per  
bushel for all the wheat they can get  
for their mill and for a few years ago  
great deal more than they can get  
now. At Fort Vermilion Mr. Chegwinn  
noticed a novel form of stock raising.  
About 125 young foxes were being  
raised in captivity. They were all  
either silver or cross foxes. They had  
been captured as kittens and would  
be kept till the coming winter when  
their fur would be prime and then  
killed for their skins which are worth  
from \$50 to \$200.

Returning up river by boat Mr.  
Chegwinn went on for 20 miles to  
Cape Horn where he found Mr. Caw-  
ling and then back to the Landing and  
out to civilization by the same route  
he went in. The summer in the Peace  
River country was wet and cool and  
harvesting operations were delayed  
much as they have been. As a matter  
of fact there is very little settlement  
in that district yet but the climate and  
productiveness of the soil are such that  
it only requires railway connection  
with the outside world to make it the  
home of thousands of prosperous far-  
mers.

Mr. Chegwinn speaks in terms of  
strong denunciation of the policy of  
the fur traders of taking into the north  
country for drinking purposes large  
quantities of extracts, ginger, pepper  
and others which are not prohibited  
by law. The natives drink create  
intoxication of the very worst form  
and the half breeds and Indians are  
being debauched in a terrible man-  
ner. Plaqueholder.

The quantity of fur which has  
been brought into Edmonton during  
the past two weeks has been at  
least 100,000 lbs. and is the largest  
quantity ever brought in. The fur  
traders are very favorably  
disposed towards the receipt of the  
world's leading fur markets. Export  
for buyers estimate the en-  
tire receipts for the two weeks at  
from \$250,000 to \$325,000.

The Bank of British North  
America is opening a branch at Cal-  
gary.

**Ran a Nail Through His Hand**  
While working a box of 100,000  
of these little nails, a man from  
the north of the city, who had been  
in the city for some time, ran a nail  
through his hand. The nail was  
driven into the palm of his hand  
and he was unable to work. He  
was taken to the hospital and  
the nail was removed. He is now  
able to work again.

**Massacred Over Three Thousand**  
Sofia, Bulgaria, Oct. 2.—The  
Macedonian revolutionary head-  
quarters asserts they have positive  
information that the whole Christian  
population of the town of  
Melonia (Razlog), province of  
Zemle, was massacred Sept. 28,  
with the exception of ten men,  
who escaped with the news.

Melonia is an important town  
and the seat of the local govern-  
ment. The population was about  
equally divided between Turks and  
Bulgarians. The latter numbered  
3,200 persons.  
According to the fugitives, when  
the general rising was declared in  
the Razlog district on Sunday, the  
Turkish troops in the Pirin moun-  
tains hurried to Melonia and sur-  
rounded the town, rendering the  
escape of the Christians impos-  
sible. The Bulgarian population  
were prepared to join in the rising.  
Desperate fighting occurred in the  
streets, bombs and dynamite being  
freely used. After five or six hours  
fighting the Turks gained the upper  
hand and proceeded to massacre  
every Bulgarian they encountered.

**Supplementary Estimates**  
Ottawa, Ont., Oct. 2.—The long  
expected supplementary estimates  
for the current year have not as  
yet been tabled. Though they are not  
as large as had been expected, the  
pruning knife having been used  
very liberally, they amount to the  
sum of \$10,590,863. This makes  
the total estimates for the year  
1903-4 amount to \$77,700,837, and  
brings the amount which this  
government has asked the house  
to vote during this session to \$133,  
091,807.  
While the increase of 1904 over  
1900 amounts to \$16,583,963 of the  
sum brought down now, \$5,416,884  
is chargeable to consolidated funds  
account, that of \$47,298,928 to cap-  
ital.

**News Notes**  
A substitute for the whip has  
been invented by a Georgia man.  
It consists of a small dynamo  
connected with the harness  
as to give the horse an electric  
shock when required.

Mrs. Rondeau, of Moraville,  
whom the Medical Association of  
Edmonton found guilty last spring  
of practising midwifery, had the  
case appealed. The Judge this  
morning dismissed the case in  
favor of Mrs. Rondeau. Mr. Gar-  
rity appeared for the defendant.

An exchange says:—It was stated  
in a South African newspaper  
recently that for every missionary  
landed on the continent Europe  
sends 70,000 cases of rum, 10,000  
cases of gin, and 15 tons of gun-  
powder. This is a terrible charge  
on statistics and the reader who  
reads between the lines may well  
stand aghast and exclaim: "Can  
this be so? To what Spartan  
battlegrounds do our missionaries go  
when they enter the fray against  
such odds as these?"

Ottawa, Oct. 1.—The bill to loan  
the Territories \$250,000 passed the  
third reading. The loan is with-  
out limit as to time and will be  
charged to the Territories on any  
future arrangement regarding their  
political status.

**Marketing Eggs**  
Did you ever consider the con-  
dition in which you market your  
eggs, or do you just put twelve  
eggs to the dozen of whatever kind  
in a basket and take them off to  
your grocer? Small dirty eggs  
are not fit to send to market, as  
they lower the price for the whole  
case. The price for eggs marketed  
is made by the small and it reacts  
on the whole of the eggs that are  
sent from one place. If the market  
call for a large brown shell egg  
furnish that kind. Find out what  
your market calls for, and furnish  
it, don't expect to get the best  
price, if you don't furnish the best  
goods.—Nor-West Farmer.

**Fair Dates**  
The dates on which a number of  
exhibitions will be held is published  
below:  
Red Deer, October 26th and 27th,  
Victoria, B. C., October 6 to 10,  
Macleod, Alta., October 6 to 10,  
High River (Races) October 13.

**A Remarkable Remedy**  
Chamberlain's Cough Remedy has a  
remarkable record. It has been in  
use for over thirty years, during which  
time many millions of bottles have been  
sold and used. It has long been the  
standard and reliable remedy in the  
treatment of croup in thousands of  
homes, yet during all this time no  
case has ever been reported in which  
the manufacturer in which it failed to  
cure. When given to a child, as soon  
as the croupy cough appears, it  
will prevent the attack. It is pleas-  
ant to take, many children like it. It  
contains no opium or other harmful  
substance and may be given as con-  
fidently to a baby as to an adult. For  
all dry coughs and croup, apply it  
to all dry coughs and croup.

**Coal Stove for Sale**  
A good self-feeder, burn coal, stove,  
suitable for sale cheap.

# **Pleasant Cure for Weak Lungs.**

The best cure for sore, weak lungs, is the soothing vapor of Catarrhine which traverses every air cell and passage of the breathing organs. It treats remote parts that cough, irritate and sneeze can't approach, and kills thousands of germs at every breath. Catarrhine drives away pain, congestion and inflammation. It makes breathing easy and regular, and exerts a marvelous influence on coughs, colds, sore throat, bronchitis, asthma, deafness, and lung trouble. Catarrhine cures at once, is delicious to taste, and simple to use. Price \$1. Small size 25c. Druggists, or Pomeroy & Co., Kingston, Ont. Dr. Hamilton's Full Cure Constipation.

**JOHN P. PETERSON,**  
one block east Wetaskiwin Hotel, Wetaskiwin.

# **DISTRICT NEWS**

Gathered by our own staff of widespread correspondents.

## **New Berlia**

John Wolstrom is building a granary these days.

C. O. Quinist has made a cellar and is now having a foundation made preparatory to the building of a large dwelling residence.

Messrs. Wind, Snow & Co. made a professional visit in this neighborhood last Friday and left as souvenirs of the occasion "a wet spell" which will delay grain stacking a few days.

It is rumored that Geo. Beahm of the "Nursery Farm" has long grown weary of the environment of back-london and has consequently sent to Germany for a "family" who will relieve George of his present inquietude. There is luck to Master George.

Times are destined to become perilous. If you differ with the scribe on this subject, why just send a dollar to The Times office and I dare warrant that you will not only get The Wetaskiwin Times but good times in general.

And so Hillsider thinks that he has succeeded in drawing the "badger" to this epidemic air we breathe the following—One of our neighbors has a little rascal, who when the moon appears on the hill, begins to demonstrate his nocturnal proclivities by barking at said moon, but as we all know the moon still keeps on shining and as for New Berliar he is in excellent good humor. And the Hillsider correspondent appears so much grieved on New Berliar's behalf because the latter criticizes the farmers writings that we really pity his calamity for he has his eyes so grossly pecked on this phase of the subject lately that he has entirely forgotten that he himself criticizes his opponent or as he words it "fading faint"—for is he not doing exactly the same thing, viz: "fading faint," since New Berliar's "New Health Food" caused Hillsider to play the "Owl Critic."

## **Stony Creek**

Harvesting is about over with, although the work was greatly hindered by the rains.

Mr. Roth expects to move to town in a short time to spend the winter. He has been making improvements on his place near Stony Creek.

Mr. Skelton had the misfortune to lose a valuable young mare a few days ago.

Will VanPelt has gone to B. C., to spend the winter.

Mr. McLeod has been quite sick the past few days, but is better at this writing. He expects to move his family to Edmonton if the weather permits.

A little son of Mr. Hartman's has been very sick for about two weeks, but is convalescing now.

## **Highland Park**

J. P. Johnson, representative of Canada, the Swedish newspaper, of Winnipeg, was here last week to get subscribers for the paper and he has succeeded very well.

E. W. Nordgren and J. W. Smith drove down to Wetaskiwin on business last week.

Mr. and Mrs. John Willeber, of Lewistown, visited here last week, with relatives.

The graziers are now busy at work stacking their grain and getting things in good shape for winter.

A son arrived at the home of Mr. and Mrs. G. A. Bergstrom last week, and as usual, feels a bigger than any man in the Park since that event. Next!

Dan Stenbury and Nathan Stromborg went to Pelletier, B. C., some time ago to get work.

Messrs. Boy and Ole Olstad, and J. L. Block, of New Norway, were here, week before last on business.

Sixty schools are to be built throughout the Doukhobor settlements for the benefit of Doukhobor children.

## **Pleasant Prairie**

Mr. W. H. Black, who had the misfortune to break his thigh bone a couple of weeks ago is doing nicely under Dr. Walker's care. Two of his neighbors Mr. Dickson and Mr. Kiser came one day and cut his oats, while Mr. Schwab helped to shock them.

Mr. Smith had the misfortune to lose one of his best horses this morning, the cause is supposed to be to much hard work on the binder.

Mrs. McRae and Miss Burne paid a visit to Mr. and Mrs. Good and enjoyed having a pleasant time, meeting Mr. Goodman a former resident of Bear's Hill.

The potato crop which is a good one is harvested and stacking is the order of the day.

## **Little Beaver Chips**

Joe Chan went back to Wetaskiwin last week. "Joe don't seem to like farming."

John Lassen, Eli DeFrain and C. Gilmore went over to Dried Meat Lake to try their luck at fishing.

Bert Cassel was visiting Little Beaver friends last Sunday.

Mr. Braden is helping Mr. Keyser build his new house.

Wild geese are getting quite numerous around here but not many have lost their lives yet.

Will DeFrain has a slight attack of Quinsy, but nothing serious.

The grain in this vicinity is all cut but owing to the wet weather very little stacking is done.

Eli DeFrain and wife and Chas. Gilmore took in the sights at Duhamel one day last week.

Hankalahl & Anderson pulled their threshing engine up from Red Willow Creek last week and are ready to begin threshing as soon as the grain is fit.

## **Penron Park**

A basket social will be held in the Lucas school house on the evening of Oct. 14th. A program will be provided. Everybody welcome. Doors open at 7:30 p.m. Ladies bring your baskets.

An enjoyable evening was spent by the young people last Saturday night at the home of Mr. and Mrs. Campbell.

Miss Bray, teacher of Lucas school has been attending the convention in Edmonton this week, consequently the children are enjoying a holiday.

Mrs. F. Lucas is spending a few days in Edmonton this week renewing old acquaintances.

## **Dried Meat Lake**

A very interesting service took place at the Methodist church on Sunday morning last. The pastor Rev. T. W. Bateman was assisted by Rev. C. G. Cornille, B. A., B. D. of Wetaskiwin, the superintendent of the circuit. After the regular service the right of Baptism was administered to four adults. Then nine were received into full church membership and after the Sacrament of the Lord's Supper was observed. The whole service was very interesting and profitable to the large company present.

## **Depot For Edmonton**

Ottawa, Oct. 5.—Owing to the increase of the police duties in the Northwest Territories, Edmonton, is to be made the chief police depot in the west, in place of Calgary.

The public works supplementary estimates were considered all day today. The estimates for the public buildings for the territories were passed, including thirty-five thousand dollars for Edmonton jail.

One item was ten thousand dollars for a barracks for the Strathcona Horse. The minister of Militia said that the amount was required for officers quarters for a permanent mounted force to be stationed at Calgary to occupy the present police barracks.

# **About Advertising**

There is no man in business, however, who desires to extend or improve his business who can afford to dispense with newspaper advertising.

Advertising, and especially newspaper advertising, as it is practiced today, is of recent growth. By degrees it has advanced and has become a last younger. It has not yet got out of its teens. Since it has been called into existence it has accomplished wonders. What it has done in the short period since it became a factor of importance may be regarded only as an introduction or preface to what it will do in the near future.

There is a magnificent realization in store for it. It is for this very reason greater attention should be given now to the preparation of advertisements than ever before. The employment of shipload methods in their preparation will not do. A poorly constructed advertisement, badly worded and insufficiently displayed, will prove as unprofitable and the undigested securities stowed away in the strong boxes of too trusting holders. The advertiser has a communication to make to the public. He must make that message clear, practical and inviting. His success will depend on how his advertisement impresses the reader. If it does so favorably, well and good; the battle is half won; otherwise he has his labor for his pains. That is never a satisfactory result.

A good advertisement in a paper of any importance is the safest investment anyone who is seeking the patronage of the public can make. The public of today is a reading public, and little that is printed in a favorite newspaper, if it has any particular or fancied one, will escape attention. It behooves, therefore, the advertiser to make his advertisement as attractive and readable as possible, avoiding long drawn-out stories, minor details, superfluous adjectives and all of the tummy-rot which is sometimes to be found in the advertising columns and which the man who wrote the ad possibly considered eloquent, humorous or convincing. A plain unfinished story often is more effective than the flowery eloquence and convincing argument of the chap who knows it all. A well written advertisement is a matter of more difficulty than most people imagine. It seems easy, but many have tried and failed. It is only easy when one knows, but how few are there who can do the trick!

A new type of the "knockout drops" man has appeared in Philadelphia. He picks out a man in the street who is smoking a cigar, follows him until he reaches a dark part, where he approaches with an apology and a request for a light. The intended victim professes his smoking weed and the other accepts it with his right hand and lights the cigar. While looking it he dexterously presses the far end against a needle of a concealed bulb which injects the "knockout drops" and leaves it in a condition to deprive its owner of his senses. Then under the pretence of assisting his victim, the "knockout" man deftly goes through the unconscious man's pockets. The impression would be that the victim had been overcome by heart disease or had succumbed to apoplexy.—Free Press News Bulletin.

**A Good Quarter Dollar's Worth** is contained in a bottle of Polson's Nerviline, which cures rheumatism, neuralgia, sciatica, toothache, headache, cramps, sick stomach and indigestion. Mothers find Nerviline is first-class balms for children's sore throat, hoarseness, cold in the chest, and taken in hot water before retiring is a splendid remedy for colds. Don't be without Nerviline! It is the most economical, potent and reliable household remedy made, and costs only 25c. Dr. Hamilton's pills cure constipation.

F. M. Beard left on Wednesday morning for Indian Territory where he will make his future home.

There will be a celebration of Holy Communion in Immanuel church on Sunday, Oct. 11th at 11 a.m.

A meeting of the W. G. T. U. will be held at the home of Mrs. Wolverton on Tuesday of next week at 4:15 p.m.

At a meeting of the Didsbury Board of Trade last week, Dr. Lackner was elected president for the coming year.

J. Jackson, of Gladstone, Ont., spent several days of the past week the guest of his son, the relieving station agent here.

Gentlemen in the vicinity of Duhamel going to dinner on Sunday are hereby notified that there is no close season for full dress suits.

A. G. Gross left on Wednesday's train to visit friends in Iowa. We understand on his return he will be accompanied by one of Iowa's fairest maids.

Remember that The Times solicits your job printing and can turn out as nice job work as any office in Alberta. Bring us all your printing, we can please you.

G. Webster, of the Merchants Bank staff, went to Edmonton on Monday to report for duty at the branch there on Tuesday morning. We are glad to hear of the promotion.

Geo. McManus and bride returned to town on Tuesday morning after their extensive honeymoon. They are now receiving the hearty congratulations of their many friends here.

The Women's Guild of Immanuel church will serve full course dinner on Thanksgiving night, Oct. 15th in the Children's Hall from 6 to 8 p.m. Admission, adults 50 cents, children 25 cents.

Robt. Bryans, John McDonald and Thos. Holston, three of Lumsy's Out, most prominent business men were here this week. They are now in the last country where they purpose investing in land.

H. A. R. Pringle, inspector of the Anglo-American Equity and London, Montreal Fire Insurance Companies was in town last week looking over the various companies interests here. He is a cousin of the editor.

The Ancient and Honorable order of the Odd Shoe will not meet again until the return of the president, Dr. Baldwin. His trip with J. A. O'Neil Hayes. Mr. C. Miquelon, of Duhamel will attend to interim business.

It is a "foregone conclusion" that a tea or dinner, provided by the Women's Guild of Immanuel church will be served to the King's taste. The Thanksgiving dinner in the Oddfellows hall, given under their auspices will prove no exception to the rule.

"Buy flour made by your own district mill. Keep the money in the country and save yourself money on each bag. We can supply you with any grade of flour you want from a cheap grade to a grade that will make as many loaves of bread to the barrel as any imported flour on the market. Get a trial sack.—Wetaskiwin Milling Co."

F. L. Mordoff, of the firm of Fowler, Mordoff & Breen, returned home on Sunday from his vacation and purchasing trip. He was not paired up in the manner in which we anticipated a couple of weeks ago, but he was accompanied by several large invoices of goods. He returns with 1000 pair of ladies sample shoes with which he expects to increase the popularity of his firm's reputation for low prices on footwear.

The Bulletin in reporting the Teachers' Convention held in Edmonton this week, has the following paragraph referring to the Principal of the Wetaskiwin Public School: "Then followed a paper on the Globe by Mr. P. H. Thibaudan. His treatment of the subject was thorough and exhaustive, and the writers worthy efforts were rewarded by a vote of thanks." Mr. Thibaudan was honored by being elected second vice-president.

# SEEING Is Believing

THIS IS BARGAIN WEEK. If you don't believe The Times, come and see for yourselves.

## Fowler, Mordoff & Breen
